Rt. 8, Frederick, Md. 21701
5/18/74

Dear Mrs. Mitchell,

Insofar as getting more information about the JFK assassination pried loose, the Supreme Court decision means nothing.

If it was not available before the decision and is not available after it, the situation is unchanged.

The difference is in the gepressiveness of the decision as it relates to other cases and other subjects. This was the best JFK case to bring.

Your rhetorical question has been answered more than once: the courts have, in effect, rewritten the law into one for suppression.

What you say about picture interpretation is true.

However, because of all the work I have done, what I now have of an evidentiary nature transcends the pictures, which do require interpretation.

I do have evidence that was withheld from the Commission. However, I can't go further into debt to print the book that includes it.

Enclosed are flyers on those of my books still available should any interest you.

Sincerely,
